# SOCIALLY CONSCIOUS

Our social responsibility is not just words, but a fundamental value that we embody in action. We are guided by ethical principles, caring for our employees, customers, and the planet. We understand that as a company, we have an impact on the world around us, which is why we take concrete actions for the local community and strive for a positive influence on our environment.

# RESPONSIBILITY IS THE FOUNDATION

Protection of environment is our top priority. We operate with a full ecological awareness, implementing innovative, nature-friendly solutions and

technologies. Our actions are dedicated to sustainable development, ensuring the well-being of our planet for future generations.

# ABOUT THE COMPANY

Aerosol Service is a family-owned company with Polish capital, established in 1993 in Ustka. After a few years, the production facility was relocated to Charnowo, where it currently thrives. Each year, the

Charnowo plant produces over 50 million products. Despite the name suggesting a connection to aerosol production, the company has significantly diversified its activities in recent years. Currently, Aerosol Service

is a leading player in contract manufacturing of cosmetics and household chemical products, addressing the needs of consumers in the areas of hygiene, care, and cleanliness in households.

## OUR GOALS

- Adapting the company to changing environmental standards
- Ensuring the health and safety of employees
- Providing fair employment and a positive atmosphere in the company
- Increasing the production capacity of the Charnowo plant
- Facilitating the development of the factory

## OUR MISSION

We deliver high-quality manufacturing services, building collaboration based on a partnership approach, within an atmosphere of mutual trust and friendship.

Zobacz film

# THE AS SYMBOL - TESTAMENT OF QUALITY

## STANDARDS

The operations of Aerosol Service are based on standards compliant with EN ISO 9001:2008, as well as Good Manufacturing Practices (GMP) according to EN ISO 22716:2007, ensuring the high quality of the manufactured

assortment. Continuous investments in both staff training and modernizing the machinery contribute to products characterized by high quality, leading to a steadily growing base of satisfied customers.

## CERTIFICATION

The company holds the following certifications:

- Since 2013 - **ISO 9001:2015** (Quality Management System)
- Since 2017 - **IFS HPC**,
- Since 2020 - **ISO 22716:2007**

(GMP - Good Manufacturing Practices)

- Since 2021 - **SMETA** (ethical audit - Ethical Trading Initiative).

These certifications serve as a guarantee of the high quality of the manufactured assortment.

## VISION

We aim to be a leader in innovative solutions in the contract manufacturing and private label industry, inspiring the creation of high quality products that meet contemporary needs and positively impact the quality of life for consumers worldwide.

## CODE OF ETHICS

Introduced by Aerosol Service in 2018, the Code of Ethics is a set of principles and rules that guide the company's activities. This code aims to support the creation of a shared value system. These guidelines shape our approach to work, relationships with customers, environmental concerns, and our social commitment.

- Launching the cosmetic department

A male scientist wearing a white protective suit, a blue hairnet, and safety glasses is operating a large, complex industrial machine in a cleanroom. He is wearing blue gloves and is interacting with a control panel that features a touchscreen display and several physical buttons. The machine is made of polished stainless steel and has a large circular opening at the bottom. The background is a bright, sterile environment with white walls and various pipes and equipment.

# ACTIVITY

## 16 PRODUCTION LINES

The new production lines not only enable us to enhance our manufacturing capabilities but also facilitate the filling of various containers, adapting to the changing needs of the market. This strengthens our position as a standout producer in the cosmetics and household chemical market.

## 50 MILLION PRODUCTS

Currently, our factory efficiently produces an average of 50 million products per year, representing a significant increase compared to previous years. This development is the result of the team's intensive work and commitment to innovative production processes and modern technologies.

## OVER 250 EMPLOYEES

The company's development is not only about growth in production and innovation but also dynamic expansion in employment. We take pride in the fact that the number of our employees has already

surpassed the impressive threshold of 250. For us, it's not just numbers; it's evidence that we are a strong pillar of the local economy, providing stable job opportunities.

- Surface disinfectant Spray

# MARKETS

## GLOBAL REACH

You can find our products in all European Union countries as well as in Norway, Finland, the United Kingdom, the USA, Israel, Australia, Malaysia, Mexico, Brazil, Canada, and Indonesia.

# WHAT DOES CSR STAND FOR?

Corporate Social Responsibility, abbreviated as CSR, embodies a strategic approach where companies, in formulating their strategies, consider societal interests, environmental preservation, and interactions with diverse stakeholders. In this paradigm, responsibility transcends mere compliance with formal and legal obligations for business entities. It involves heightened investments in

human capital, environmental conservation, and engagement with stakeholders wielding genuine influence over the efficacy and innovation of these organizations.

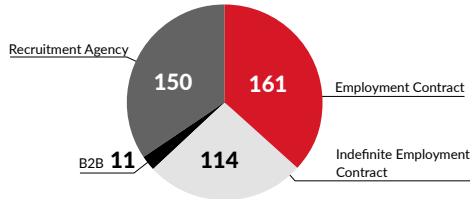

Expenditures of this nature should be perceived as investments and founts of innovation, rather than mere costs, akin to the principles governing quality management.

# HUMAN RIGHTS

Aerosol Service fully supports human rights, respects cultural differences, and, in particular, is sensitive to any manifestations of discrimination, demeaning treatment, and violation of the dignity of others. In their daily

work, internal relationships, and interactions with external stakeholders, Aerosol Service employees do not remain indifferent to the violation of human rights.

# OVER 250 EMPLOYEES

# EMPLOYMENT

- 8 persons with recognized disabilities
- over 100 production workers of various nationalities (from Ukraine, Moldova, Georgia, Belarus)

# PEOPLE

# LABOR LAW

## STANDARDS

Aerosol Service ensures equal opportunities for job candidates during recruitment processes. All employees are treated fairly, regardless of their position, length of service, employment

status, union affiliation, age, gender, sexual orientation, external appearance, level of physical fitness, nationality, religion, or political beliefs.

# EMPLOYEE TRAINING IN THE YEARS 2022-2023

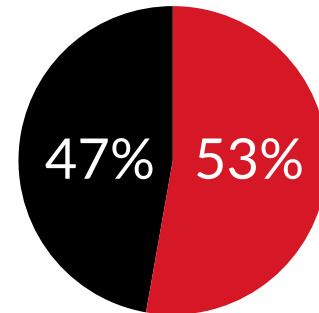

- Training for the management staff covering: contact psychology, task delegation, self-management, assertiveness, conflict resolution, and negotiation.
- Team training for customer service, R&D, and procurement in the areas of dealing with difficult clients, self-management, contact psychology, and project management.
- Foremen and production masters underwent training in contact psychology and self-management.  
Procurement Department training in effective procurement management.

## INTERNSHIP

Since 2022, in collaboration with the Mechanical and Logistics School, students finishing their final year of school. We have been implementing an internship program for final-year students. In May 2022, we welcomed

one student for an internship in the field of logistics, and in December 2022, we accepted two students specializing in the professions of machine mechanic and mechatronics.

## EMPLOYMENT BY GENDER AT AEROSOL SERVICE

■ WOMAN

status as of December 31, 2022

# EMPLOYEE BENEFITS

## HEALTH CARE

In caring for the health and safety of our employees, every Aerosol Service employee has the opportunity to join the group health insurance program.

The program ensures access to doctors and medical tests in private healthcare facilities with short waiting times, without queues.

## EMPLOYEE MULTISPORT CARD

On March 1, 2023, we introduced access to Multisport cards for our employees, providing them with the opportunity to use sports and

recreational facilities. The cards also grant access to the MultiLife program, promoting self-development and well-being.

# FINANCIAL SUPPORT FOR PROFESSIONAL TRAINING AND STUDIES

In 2022, three employees benefited from financial support to enhance their qualifications:

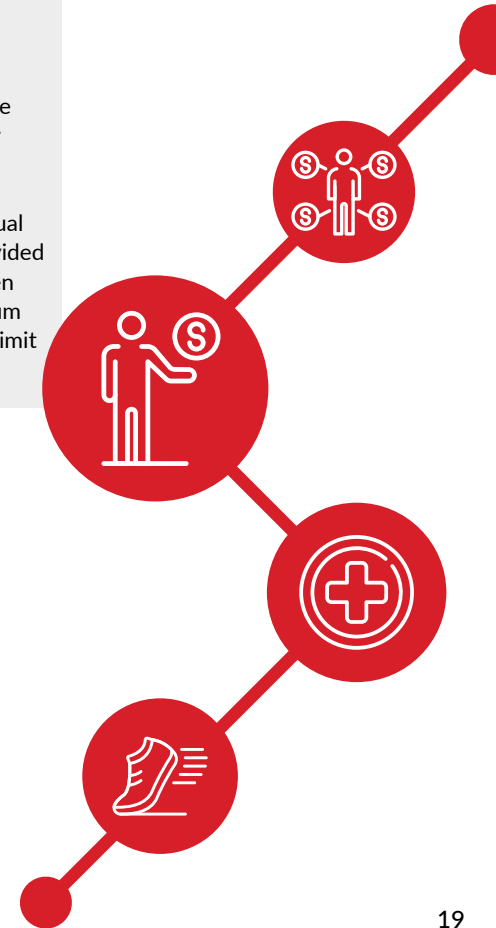

- The Customer Service Manager completed postgraduate studies in the field of LEAN,
- Customer Service Manager completed postgraduate studies in LEAN,
- Assistant in the Transport Department completed the second year of studies in Transport and Logistics,

In 2023, the following employees benefited from the subsidies

- All Purchasing Department employees participated in the training on Procurement Management Efficiency,
- Assistant in the Transport Department completed the third year of studies in Transport and Logistics,
- Office Coordinator began the second year of Business Management studies,
- Transport Specialist started the first year of studies in Logistics.

# LONGEVITY PAY

The salary regulations include a probationary allowance for employees employed under an employment contract, amounting to 1% of the annual salary. This allowance is provided for employees who have been employed at AS for a minimum of 3 years, with a maximum limit set at 15%.

# WE TAKE CARE OF SAFETY

## SAFETY IN THE PRODUCTION HALL

- We have marked external pedestrian and traffic routes,
- Established first aid points in the production hall,
- Equipped with special tools for removing chemical and oily substances,
- Possess current plant plans placed near evacuation doors,
- Formed and trained rapid response teams,
- Established a specialized OHS team,
- Conduct regular fire drills with the fire brigade,
- Forklifts equipped with light signaling,  
Regularly perform environmental tests.

## PANDEMIC

During the pandemic, our company focused on protecting and educating employees. We took proactive measures to prevent the virus-related risks while simultaneously monitoring the pandemic's impact on our

operations. To ensure the safety of our employees, we implemented a reorganization of work. Promoting flexibility and facilitating the functioning of employees, we decided to introduce remote work in selected departments. Thanks

to existing work standards and the implementation of digital solutions in communication, this transition occurred smoothly, and our managers were well-prepared to lead dispersed and remote teams.

# NUMBER OF ACCIDENTS IN THE COMPANY

We aim for the “Zero Accidents” goal among our employees by improving behaviors and automation to ensure a healthy and safe working environment.

# HEALTH & SAFETY

Aerosol Service ensures compliance with employee rights related to safety and occupational health. Therefore, we provide our employees with, among other things:

- Employment in a place where all potential health and safety hazards are appropriately controlled.
- Free access to personal protective equipment.
- The option to leave the workplace without disciplinary consequences in case of concerns related to personal safety.
- The opportunity to inform the employer about any issues or doubts regarding health and safety.

# EFFICIENT OCCUPATIONAL RISK MANAGEMENT

In 2023, we completed participation in the “Efficient Occupational Risk Management” project. The program, organized by the District Labor Inspectorate in Gdańsk, aimed to promote the proper assessment of occupational risk as a key element of occupational safety management and accident

prevention. Our company actively engaged in this program, driven by the goal of achieving “Zero Accidents” among our employees. Through participation in the project, we focused on improving employee behaviors to create a healthy and safe working environment for everyone.

# RAPID RESPONSE TEAM

A team of designated and trained employees in providing first aid, firefighting, and responding to chemical leaks. Members of the Rapid Response Team form an organized group with assigned tasks.

## PURPOSE OF THE GROUP

Familiarizing employees and those in charge of employees with:

- principles of action in the event of a threat to the health or life of injured persons, as well as methods of supervising first aid kits,
- principles of action in the event of a fire, including firefighting methods and methods of supervising these measures,
- principles of action in the event of an environmental incident on the company's premises, such as a chemical leak.

# ALWAYS READY

On the information board in the production hall, there is a list of members of the Rapid Response Group (RRG) along with their phone numbers. This allows everyone to easily get in touch with the right person in case assistance is needed.

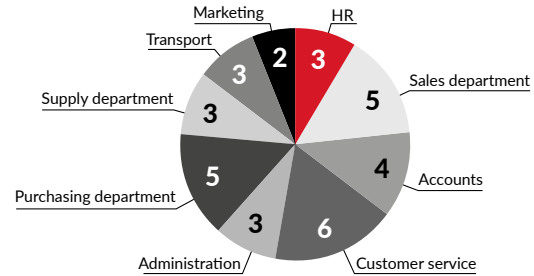

# ADMINISTRATION STAFF

## EMPLOYMENT

## OHS IN THE OFFICE

We are committed to providing comprehensive safety knowledge to every employee at the onboarding stage through participation in dedicated OHS (Occupational Health and Safety) training. We conduct regular audits and workplace condition reviews, responding promptly to reports of office malfunctions by conducting necessary servicing.”

## OUR OFFICE

Caring for the health and comfort of employees also involves ensuring an efficient working environment. Our office underwent a thorough renovation in 2023, creating an inspiring and comfortable space that stimulates creativity, collaboration, and employee engagement.

# BUSINESS RELATIONS

In the interest of the company and all stakeholders, Aerosol Service is committed to continuous improvement of its operations. We prioritize the safe and timely delivery of our services, the quality of collaboration and communication, as well as the building of relationships based on mutual respect, both within the company and with the external environment.

## STAKEHOLDER

- Clients
- Employees
- Contractors
- Local Community
- Non-Governmental Organizations
- Public Authorities

## ETHICAL PRACTICES

We put a lot of effort into ensuring that the services we provide are of the highest quality. In our actions, we adhere to the principles of ethical conduct.

## CONTINUOUS IMPROVEMENT OF SERVICES

We continuously strive to improve our services and create innovative solutions that have a real impact on the quality of life for consumers worldwide.

## PARTNERSHIPS

- We are members of industry organizations and associations gathering entrepreneurs:
- Polish Association of Cosmetic and Detergent Industry
  - Polish Union of Cosmetic Industry
  - Słupsk Chamber of Industry and Commerce
  - Pomeranian Regional Development Agency

# COMMUNITY

We are a socially responsible company. We support numerous community initiatives and charitable actions. We inspire people to take action for their immediate surroundings.

Engaging in the life of the local community is both our duty and privilege. Every day, we strive to understand the needs and opinions of the local community and incorporate them into

our actions and policies. We identify needs in various areas of our community to effectively influence the development of the region in which we operate and improve people's quality

of life. We believe that ethical actions are not only a matter of appropriate behavior but also a demonstration of honesty, maturity, and business credibility.

## POMERANIAN UNIVERSITY

In 2023, we initiated cooperation with the Pomeranian University in Słupsk. We have planned to collaborate on scientific research, internships, and study visits for students, as well as to organize joint scientific events or training sessions. This form of cooperation is mutually beneficial, allowing students from the Pomeranian University to gain practical experience while providing our company with the opportunity to showcase itself as a potential employer.

## CITY OF SŁUPSK

In November 2023, we initiated discussions with the City of Słupsk regarding future cooperation. Both parties declared their intention to engage in joint activities. With the well-being of our region in mind, we have decided to focus primarily on the areas of ecology, education, and culture. The opportunity to collaborate with the City of Słupsk is a tremendous honor for us, as well as a significant challenge. The commencement of joint activities is planned for the year 2024.

## CITY OF USTKA

For many years, Aerosol Service has been cooperating with the city of Ustka. Primarily, we provide financial support to the city in organizing events during the tourist season. During a meeting with the Mayor of Ustka in November 2023, we declared our continued willingness to cooperate.

# LOCAL COOPERATION

A group of men and children in red and black basketball uniforms standing on a court. The men are wearing red jerseys with 'ENERGA' and 'TAURON' logos. The children are wearing black jerseys with red accents. The background shows a brick wall with a 'Gdańsk' sign and a '102' sign.

# SOCIAL PROJECTS SUPPORTED BY AEROSOL SERVICE

## CZARNI SŁUPSK (2018-2019 SEASON)

During the 2018-2019 basketball season, we collaborated with the Słupsk Basketball Society "Czarni." By sponsoring the local

basketball team, we aimed to further integrate with the local community and emphasize our commitment to its development.

## BLACK ACES (2018-2020)

In the years 2019-2020, our company organized the Black Aces Basketball Academy, which was created with the youngest in mind. The mission of the Academy was to create the best conditions for the physical and mental development of children aged 5 to 9 by reaching

out to kindergartens, schools, sports halls, and playgrounds to organize additional sports activities based on basketball games and fun. The activities within the Black Aces Academy were conducted periodically, in organized groups.

## ESCORT OF THE BLACK ACES

The Black Aces Academy also became a well-coordinated children's escort, providing exceptional value for the players of Black Słupsk. This

was a pioneering solution in Polish basketball, which we implemented in collaboration with the Academy before the Black Słupsk matches.

## FIREFIGHTER TRUCKS GATHERING

Video from the event, which was supported by our company.

## SUPPORT FOR THE PURCHASE OF A RESCUE-FIRE TRUCK IN SŁUPSK

In 2021, we provided financial support to the Municipal Fire Department in Słupsk. The funds provided were part of the financing for the implementation

of the task entitled “Purchase of a heavy rescue-fire truck for the Municipal State Fire Service Command in Słupsk”.

## SUPPORT FOR THE ORGANIZATION AND FIRE TRUCKS GATHERING IN SWOŁOWO

In 2023, we supported the organization of the Fire Trucks Gathering in Swołowo. The event organizers prepared numerous firefighting demonstrations and accompanying activities for both

children and adults. During the event, a parade of 50 fire trucks took place. The main goal of the event was to promote safety in the region and raise awareness about the fire brigade.

## **PRESENTING OF DISINFECTANTS TO HEALTHCARE ENTITIES VALUED AT 9,293,000 PLN**

Aerosol Service did not remain indifferent to the difficulties faced by our community during the COVID-19 pandemic. In the spirit of social responsibility, we decided to donate disinfectants totaling over 9 million Polish zlotys to various entities. These actions were an expression of Aerosol Service's commitment to health protection. The donated

disinfectants were distributed to various institutions, healthcare facilities, and other key locations that played a significant role in combating the pandemic. Support was provided to many hospitals including those in Chojnice, Gdańsk, Szczecin, Bydgoszcz, Bielsko-Biała, Nowy Targ, Mysłowice, and Katowice.

## **PRESENTING OF DISINFECTANTS TO THE „USTKA CITY” MUNICIPALITY AND USTKA MUNICIPALITY AMOUNTING TO ALMOST PLN 450,000**

In 2022, our company provided disinfectants to local authorities. The supplies were distributed to

municipal social services, medical clinics, and Municipal Utilities.

## WE LIKE TO BE ON THE WAVE

“Pro-social entrepreneurs, active residents, and officials. Together, we create this city. We extend heartfelt thanks to everyone involved in enhancing the tourist offer of our city.”  
- these words come from a video prepared by the City of Ustka in 2019.

## AEROSOL SERVICE AS A SPONSOR OF THE SEASON IN USTKA (2018-2023)

We are active locally. For several years, our company has been sponsoring the season in Ustka. We are a partner in many events organized by the local government of Ustka. We also

participated in the Residents' Day in Ustka, actively engaging in the event. Additionally, we regularly support sports events organized by the Ustka Center for Sport and Development.

## WE SUPPORT LOCAL EVENTS

We support local events by sponsoring initiatives such as:

- Columbus Wind Festival,
- Grand Lubicz Festival of Lights,
- Sea Days,
- Festival of Street Artistic Reactions,
- Fish Harvest Festival - Ustka Celebration,
- Residents' Day,
- Ustka Grand Prix Running.

# WE SUPPORT THE ORGANIZATION OF THE SEASON IN USTKA

BEING CLOSE TO LOCAL COMMUNITIES  
IS MORE THAN A COMMITMENT FOR US  
- IT'S OUR MISSION

# COLUMBUS WIND FESTIVAL IN USTKA

THE COLUMBUS WIND FESTIVAL TOOK PLACE THREE TIMES IN THE YEARS 2018, 2019, AND 2022

AEROSOL SERVICE WAS ONE OF THE KEY SPONSORS OF THE COLUMBUS WIND FESTIVAL IN USTKA

# SUPPORTING CHARITABLE ACTIONS AND LOCAL ORGANIZATIONS

## LOCAL SUPPORT

Aerosol Service is fully committed to its social mission by supporting various local organizations. Recognizing the role it plays in the community, our company has decided to provide financial and material support to several institutions and NGOs in the region, including:

- Bone Marrow Transplantation Center in Słupsk
- Leśna Oaza Słupsk Social Welfare Home
- Pomorski Ośrodek Doradztwa Rolniczego in Luban
- Amazonki Słupsk
- Centrum Aktywności Twórczej Ustka
- Szczypiorniak Ustka (Ustka Handball Club)
- Klub Sportowy Słupia Charnowo (Słupia Charnowo Sports Club)

- Bałtycka Galeria Sztuki Współczesnej (Baltic Contemporary Art Gallery)
- Klub Sportowy Jantar Ustka (Jantar Ustka Sports Club)
- Ustecki Uniwersytet Trzeciego Wieku (Ustka University of the Third Age)
- Miastecki Związek Ludności Pochodzenia Niemieckiego (Miastko Association of German Descendants)

## CHARITY DINNERS AT HOTEL GRAND LUBICZ

The company's management participates in charity dinners under the title "Lubicz & Friends," which are organized annually at the Hotel Grand Lubicz in Ustka. We are honored and grateful that the company can be a part of such an important initiative.

We fully share the foundation's motto and understand the importance of sharing with those in need of support. In business, it is important not only to achieve success but also to have the ability to share with others.

## SHELTER COLLECTION

In 2023, we organized a collection of food and necessary items for the Shelter for Animals in Słupsk. Additionally, our company supported the shelter with cleaning supplies and household chemicals.

# GIFTS FEATURING LOCAL PRODUCTS

## CHRISTMAS GIFTS PACKED BY THE BENEFICIARIES OF THE PRZYSTAŃ FOUNDATION

The Christmas packages for our clients include local products sourced from companies in the Słupsk region, such as „Usteckie krowki” – hand-cut and packaged confectionery produced at the Mistral café in Ustka, tea blends from the Ustka Tea Room, and honey from the Pasieka Wędrowna Barć in Krzemienica. Upon

our company's request, the packaging of the products into cartons was done by the beneficiaries of the Przystań Foundation from Słupsk. The gift boxes we used for packaging are eco-friendly and recyclable.

Get to know the  
Przystań Foundation.

# ENVIRONMENT

An aerial photograph of a dense, lush green forest, showing a variety of tree species and a thick canopy of leaves. The perspective is from above, looking down into the forest.

For Aerosol Service, caring for the natural environment is an integral part of our business philosophy. We believe that small steps bring tangible benefits. We take care of waste segregation, use energy efficiently and economically, save paper, ensure proper disposal of equipment and used toners. We undertake actions aimed at minimizing the amount of waste generated. We raise

environmental awareness among our employees. We believe that sustainable development aims to ensure the basis of existence for every human being and to bring order to their living environment. The company's development goes hand in hand with environmental protection through local actions that impact global environmental policy.

# TRANSPORT

## LOW AND ZERO-EMISSION VEHICLES

At Aerosol Service, we are progressively renewing our vehicle fleet, aiming to reduce CO<sub>2</sub> emissions and other pollutants. Today, we can

proudly announce that one-third of our fleet consists of vehicles powered by LNG! This is a step towards a sustainable future.

## LATEST SAFETY SYSTEMS

We not only care about the environment but also the safety of our drivers and other road users. The purchased vehicles are equipped with

the latest safety systems to provide our drivers and other users with maximum protection.

# ECOLOGICAL WAREHOUSE FLEET

## FORKLIFTS

In 2023, our warehouse fleet welcomed another set of new, eco-friendly forklifts with lithium-ion batteries! We are gradually replacing our vehicles with more

efficient and environmentally friendly options. Currently, the majority of our forklifts are powered by lithium-ion batteries.

## OPERATOR COMFORT

These new forklifts are not only eco-friendly but also equipped with a range of features to make the operator's work easier and more comfortable. The

compact design allows for operation even in narrow aisles, and the short charging time ensures practically constant availability of the forklifts.

## LITHIUM-ION BATTERIES

At our company, we aim to introduce alternative energy sources, including in the area of goods warehousing. With lithium-ion batteries, we

ensure that our fleet operates efficiently and environmentally friendly. This is another step towards the sustainable future that we are building together!

# ECOLOGICAL INNOVATIONS

Our company goes beyond implementing solutions for our clients. The Research & Development department puts into practice original ideas regarding product packaging and formulation. Our efforts focus on three main areas that define our mission of sustainable development.

## Designing better products:

We are working on creating products that not only meet the needs of today's consumers but are also environmentally friendly. We introduce packaging that is not only durable and multifunctional but also minimizes resource consumption and environmental impact.

## Waste reduction:

We believe that waste is simply resources in the wrong place. In our innovations, we aim to utilize materials derived from recycling.

## Promoting reusability:

One of our main goals is to educate consumers about conscious product usage. Our environmentally friendly innovations are versatile, allowing them to be used with a variety of products for different purposes. This supports the zero waste concept by complementing original products in a sustainable manner. At Aerosol Service, we are not only changing the way we look at products but also the entire life cycle. Our innovations not only conserve resources but also inspire actions for a sustainable future.

## ACTUO

ACTUO is the first aerosol applicator that allows for one-handed product dispensing without the need to grasp the packaging. Its innovative design makes the application of foam, gel, or cream products very simple and helps maintain cleanliness, ensuring greater hygiene during use.

**ecoshot**  
aerosol refill solution

actuo  
one-handed actuator

## ECOSHOT

ECOSHOT is a refill concept that utilizes mini aerosol containers containing concentrates for diluting products with water at home. The compressed air in ECOSHOT enables the dispensing of concentrates of various viscosities. This innovation allows consumers to refill and use products of various capacities multiple times.

lesso  
spray less

refillme  
alu refill solution

**SPRAY 'N' USE  
APPLICATOR**

## LESSO

LESSO is a dispensing applicator designed specifically for compressed products and BOV (Bag-On-Valve) technology. Its main purpose is to educate consumers about conscious product usage.

## SPRAY'N'USE APPLICATOR

SPRAY'N'USE APPLICATOR is a pocket-sized device that uses interchangeable mini aerosol sprays and applicators tailored to specific needs. Its convenient design ensures hygienic and precise dispensing and safety for the user. The airtight closure guarantees that the product does not spill or dry out. The device has multiple applications, and its users can be various recipients, including household, technical, or cosmetic areas.

## REFILLME

REFILLME is the first solution on the market that enables the use of aluminum and eco-friendly aerosol containers for multiple refills of liquid products (without pressure). A special adapter, easily removable from the container, allows for the use of various applicators, such as pumps, triggers, or atomizers.

## ECO-LOCK

ECO-LOCK is an innovative aerosol applicator that features a twist-lock mechanism. It allows switching between three modes: locked, active (allowing spraying), and enabling the removal of the plastic applicator from the packaging (for reuse or waste segregation).
